Subject: OMB's Spring 2017 Regulatory and Deregulatory Agenda has been released

Dear all,

I am following up on Bill's note from earlier this year about the Spring 2017 Regulatory and Deregulatory Agenda.

It was recently published on www.reginfo.gov.

As Bill had indicated, ASD has one "active" rule, the 2018 RFS annual standard. However, there are a few differences from the submission that Bill described below.

The endangerment finding for aviation lead emissions is listed as a "long-term action."

Our other rules are on an "Inactive Actions" list, which is new this year. In the past, we have listed any actions that we are not quite ready to have posted in the Reg Agenda as "Pending." This new "Inactive" list is a list of those items. It was published on OMB's website separate from the Reg Agenda.

The ASD rules on the "Inactive" list include:

- Renewables Enhancement and Growth Support (REGS) Rule
- Vehicle Test Procedure Adjustments for Tier 3 Test Fuel
- Aircraft CO2 NPRM

The Fuels Regulation Modernization - Phase 1 (Streamlining) rule should have been on that list but isn't—this is being looked into, and we'll have an opportunity to add it for the Fall Reg Agenda, which will be gearing up soon.

Please see Bill's earlier note for the context on why the rules are in these categories (and why others don't appear).

Subject: RE: Office of Management and Budget's Spring 2017 Regulatory and Deregulatory Agenda – OTAQ/ASD items

I did receive one question this morning that I should have anticipated in my initial email – and that is, when will the Spring Reg Agenda be released by OMB?

The answer is we don't know. There is never a set date for OMB to issue either the Spring or Fall Reg Agenda.

Given that this is the first Reg/Dereg Agenda from the new Administration, it could either come fast, or maybe it will take a while. I would expect we would see this in late April at the earliest, but possibly not until May or maybe even June.

Subject: Office of Management and Budget's Spring 2017 Regulatory and Deregulatory Agenda – OTAQ/ASD items

Dear all,

As you may know, the Office of Management and Budget issues a "regulatory agenda" each spring and fall that lists the regulatory actions for the entire Federal government, including of course EPA. This year the Reg Agenda will be called something like the Regulatory &

Deregulatory Agenda.

A few weeks ago EPA's Office of Policy made their regular call for updates to the EPA program offices, including the Office of Air and Radiation (OAR) and OTAQ. ASD has a number of items that were listed in the Fall 2016 regulatory agenda that have to be updated, as follows:

- Renewables Enhancement and Growth Support (REGS) Rule
- Vehicle Test Procedure Adjustments for Tier 3 Test Fuel
- Fuels Regulation Modernization - Phase 1 (Streamlining)
- Aviation Lead Emissions
- Aircraft CO2 NPRM

Because we know that these actions will not occur between now and the end of FY17, and because we have not had the opportunity to speak with the new leadership to determine potential dates for any of these actions, OTAQ has recommended that the action date be moved to the FY2019 or later time frame, or will simply be labeled as "pending."

The reason for this approach is not because we know for certain that each of these actions won't occur until FY2019 and later, but rather because it did not seem reasonable for the Spring agenda to identify dates for each of these action items.

Our plan is that over the coming months, in particular once we have a new Assistant Administrator for OAR, we will have the opportunity to brief the new AA and get guidance on each of these action items. It is quite possible that for the Fall agenda, we will move forward the dates for a number of these actions, once we have had briefed and received input from the new leadership.

Note that for the light-duty GHG Mid-term Evaluation and Administrator Pruitt's

reconsideration of the Final Determination, we have not listed that in the Spring Reg Agenda at all pending additional guidance from the new leadership.

Our potential future highway heavy-duty NOx standard setting regulatory program development wasn't listed in the Fall Reg Agenda, and therefore does not need to be in the Spring Reg Agenda.

For the 2018 RFS annual rule, we have submitted a schedule with an NPRM signature of April 2017, in order to meet the statutory deadline of November 2017.

Please note that this is what OTAQ and OAR have submitted to EPA's Office of Policy for submission to OMB, so it is still possible that there will be further changes.

If you have any questions on this please let me or your manager know (though in my case I'll be on leave next week, so I probably won't be able to get back to you until the second week of April).

Thanks

Bill

Subject: Spring 2017 Reg Agenda information

All,

As you may have heard, the Spring 2017 Regulatory & Deregulatory Agenda recently published on www.reginfo.gov. The Reg Agenda is broken into separate parts – the Unified Agenda (upcoming actions) and Long-term Actions (items for which we will not be publishing an action within the next 12 months). There is also a ‘Completed Actions’ section of the Unified Agenda, for actions that we have completed in some fashion (completed & published in the FR, or addressed in a separate action). New this year is an “Inactive Actions” list – in the past, we have listed any actions that we are not quite ready to have post in the Reg Agenda as “Pending”. The Inactive Actions list is a listing of those Pending items, however OMB now publishes the list of all Federal agency Inactive/Pending actions on its website (separate from the Reg Agenda). Links to the EPA sections of the various areas of the reginfo.gov site are below.

And the attached Excel workbook provides a listing of all of the OTAQ actions in the various categories: the “active-longterm-completed” spreadsheet (1st tab) contains actions in these 3 stages – Column E denotes which stage an action is in; and the “inactive” sheet (2nd tab) lists all of the items on the Inactive Actions list. We included filter buttons in both sheets to search for just OAR actions, and all OTAQ actions are in bold, red font.

The OTAQ actions that we worked with your Divisions on to review & update abstracts, dates, etc. are included here (thank you for all of your help!!), except we noticed that the Fuels Reg Modernization/Streamlining rule did not appear here for some reason. We are checking with OP on this, and will make sure that it appears in the Fall Reg Agenda – we will likely receive the call for updates for the Fall Agenda soon.

Subject: RE: the latest Reg Agenda twist.

It is currently marked as “Long-term”—so it should appear in the Reg Agenda (as opposed to the inactive list) as “long term” with no dates attached.

It has been impossible to discern how OP is sorting things into the bins of “long-term” versus “pending/inactive.” And when changes are made, we are getting them without any notice and with immediate deadlines, like Nicole’s note below.

At this point I can’t really say with any confidence exactly what the final, published sites/documents will look like.

Ben

How is the aircraft Pb endangerment included, or not, in the Reg Agenda? It doesn’t seem to be on this public list of inactive things.

Subject: the latest Reg Agenda twist.

Bill, Kathryn—

We saw this yesterday afternoon. The short story *appears* to be (and I say “appears” because this process has been such a twisty mess this year) that items we had previously labeled as ‘pending’ will now be made public in a list dubbed ‘inactive.’

I don’t think there’s anything for us to do here, but I did want to alert you for stakeholder management purposes. I don’t have any information on when the reg agenda goes public, but I gather from this email below that they are probably nearing a ‘go-live’ date.

This list includes:

REGS, Tier 3, aircraft GHG, palm oil supplemental, and non-road diesel engines

It does not, for some reason, include the streamlining rule (which we had in previous iterations of this marked as pending)

Please let me know if you want to discuss this further.

Ben

Subject: Inactive actions

Importance: High

Hello –

Thanks for all of the work you have done on the Reg Agenda this cycle. We appreciate it. Attached is the list of actions that will appear on a public inactive list (formerly known as “pending” and not public). Please note that this includes a few actions your office has indicated you would like to withdraw; however given the new timing for the agenda, we just don’t have time to get final material from you and get that reviewed before the desired publication date, which we understand may be as early as next week. You should plan on withdrawing these for the next cycle. Note also that only the title and RIN will appear on the list, not an abstract or other information. We need to know today if there are issues. If you absolutely believe you need to move something from this list to an active Reg Agenda entry then by the end of the day you need to let us know which action, why, and send us a complete Reg Agenda entry. Note there is no leeway on timing for this, if we don’t hear from you by the end of the day, it means your office agrees with this list.

Subject: Draft reg agenda email
[Copy of Spring-2017-published.xlsx](#)

Howdy,

Below is a draft email for your review on the Reg Agenda - it's overly detailed on purpose, to answer the million questions I've gotten from people over the past few days. Also, we should definitely chat about this before we send out – there's a new narrative on the OIRA page that I think will be somewhat alarming to folks, so wondering if I should also address that?

All,

As you may have heard, the Spring 2017 Regulatory & Deregulatory Agenda recently published on www.reginfo.gov. The Reg Agenda is broken into separate parts – the Unified Agenda (upcoming actions) and Long-term Actions (items for which we will not be publishing an action within the next 12 months). Hello Danielle,

Attached are two items you requested related to EPA's agenda – the list of 'inactive' actions by RIN & title, and the document containing actions previously listed as "pending" but now requested by EPA to publish as long-term or completed. Let us know what additional questions you have on these actions.

Levi, I believe that I need you to affirmatively check each action no longer 'pending' and mark them as "Include in E-Unified Agenda – Yes." The list of RINs is below; all other edits to these actions have been completed by you and Connie.

2070-AJ64	Lead Wheel Weights; Regulatory Investigation
2070-AJ61	Pesticides; Clarifying Changes to Labeling
2070-AB27	Significant New Use Rule (SNUR); Chemical-Specific SNURs To Extend Provisions of Section 5(e) Orders
2070-AK25	Restoration of Inadvertently-Removed Exemption from the Requirements of FIFRA

2070-AD44	Test Rule; Multiple Substance Rule for the Testing of Developmental and Reproductive Toxicity
2070-AJ38	Polychlorinated Biphenyls (PCBs); Reassessment of Use Authorizations
2070-AD55	Plant Incorporated Protectants (PIPs); Exemption for Those Derived through Genetic Engineering from Sexually Compatible Plants
2070-AD14	Pesticides; Registration Requirements for Antimicrobial Pesticide Products
2070-AJ49	Pesticide Product Performance Data Requirements for Products Claiming Efficacy Against Invertebrate Pests
2070-AJ45	Pesticides; Reconsideration of Exemptions for Insect Repellents
2070-AJ66	High Production Volume (HPV) Chemicals; 4th Group of Chemicals
2070-AJ34	Nonylphenol (NP) and its Ethoxylates (NPE); Test Rule
2070-AJ93	Hydraulic Fracturing Chemicals and Mixtures
2070-AC46	Groundwater and Pesticide Management Plan Rule
2070-AJ68	TSCA Inventory; Clarification for Chemical Identifications Describing Statutory Mixtures, Including Ceramic Materials, Cements, and Frits for Inventory Purposes
2070-AJ07	Testing Agreement for Aryl Phosphates (ITC List 2)
2070-AD56	Plant Incorporated Protectants (PIPs); Exemption for PIPs that Act by Primarily Affecting the Plant
2070-AK12	Polychlorinated Biphenyls (PCBs); Reassessment of Use Authorizations for PCBs in Small Capacitors in Fluorescent Light Ballasts in Schools and Daycares
2070-AA58	Follow-Up Rules on Existing Chemicals
2070-AC21	Lead Fishing Sinkers; Manufacturing, Processing, and Distribution in Commerce
2070-AK16	Toxics Release Inventory (TRI); Addition of Natural Gas Processing Facilities
2070-AD49	Plant Incorporated Protectants (PIPs); Exemption for those Based on Viral Coat Protein Genes
2070-AJ31	Significant New Use Rule for Chloranil
2015-AA01	Supplemental Standards of Ethical Conduct for Employees of the Environmental Protection Agency
2050-AE34	Management of Cement Kiln Dust (CKD)
2050-AG34	Revisions to Land Disposal Restrictions Treatment Standards and Amendments to Recycling Requirements for Spent Petroleum Refining Hydrotreating and Hydrorefining Catalysts
2050-AG78	National Contingency Plan Revisions to Align with the National Response Framework
2050-AG66	CERCLA/EPCRA Reporting Requirements for Air Releases of Hazardous Substances from Animal Waste at Farms
2050-AE87	Revisions to the National Oil and Hazardous Substances Pollution Contingency Plan; Subpart J Product Schedule Listing Requirements
2050-AG56	Financial Responsibility Requirements under CERCLA Section 108(b) for Facilities in the Chemical, Petroleum and Electric Power Industries

2050-AG45	Standards for the Safe and Environmentally Protective Placement of Coal Combustion Residuals as Minefill in Coal Mines Not Regulated Under the Surface Mining Control and Reclamation Act
2050-AC71	RCRA Subtitle C Financial Test Criteria Regulatory Determination
2050-AG40	Emergency Planning and Community Right-to-Know Act: Amendments and Streamlining Rule
2040-AD87	Statement of Policy -- NPDES Permit Requirements for Peak Wet Weather Discharges from Publicly Owned Treatment Work Treatment Plants serving Sanitary Sewer Collection Systems
2012-AA02	Revisions to Federal Implementation Plans Under the Clean Air Act for Indian Country in Idaho, Oregon and Washington

Subject: spring 2017 semiannual regulatory agenda has published

Today the Spring Reg Agenda published online at <https://www.reginfo.gov/>. Attached is a list of EPA's published actions. I will provide a link later to the list of 'inactive' (e.g., pending) actions when it is available.

Remember, if you wish to query the Agenda materials yourself, the best way to do so from <https://www.reginfo.gov/> is:

Unified Agenda > Search > Advanced Search > Search most current publication only > Environmental Protection Agency > Continue.

From this "Advanced Search" area you must do three separate queries (Active Actions, Completed Actions, Long-Term Actions) to see the entirety of EPA's published agenda.

From this "Advanced Search" area you must do three separate queries (Active Actions, Completed Actions, Long-Term Actions) to see the entirety of EPA's published agenda.

The screenshot shows the 'Advanced Search - Select Additional Fields' page on the EPA's Reginfo website. At the top is a navigation bar with links: Home, Unified Agenda, Regulatory Review, Information Collection Review, FAQs / Resources, and Contact Us. Below the navigation bar is the title 'Advanced Search - Select Additional Fields'. There are three radio buttons for selecting the type of actions: 'Active Actions' (selected), 'Completed Actions', and 'Long Term Actions'. Below these is a text box for 'Unified Agenda and Regulatory Plan Search Criteria' containing 'Publication ID=201704; Agency=Environmental Protection Agency;'. There are several checkboxes for refining the search: 'RIN' (with an empty text box), 'Major' (Yes, No, Undetermined), 'Included in the Regulatory Plan' (Yes, No), 'RFA Section 610 Review' (Section 610 Review, Completion of a Section 610 Review), and 'Government Levels Affected' (Federal, Local, State, Tribal).

Subject: Spring 2017 Reg Agenda information

All,

As you may have heard, the Spring 2017 Regulatory & Deregulatory Agenda recently published on www.reginfo.gov. The Reg Agenda is broken into separate parts – the Unified Agenda (upcoming actions) and Long-term Actions (items for which we will not be publishing an action within the next 12 months). There is also a ‘Completed Actions’ section of the Unified Agenda, for actions that we have completed in some fashion (completed & published in the FR, or addressed in a separate action). New this year is an “Inactive Actions” list – in the past, we have listed any actions that we are not quite ready to have post in the Reg Agenda as “Pending”. The Inactive Actions list is a listing of those Pending items, however OMB now publishes the list of all Federal agency Inactive/Pending actions on its website (separate from the Reg Agenda). Links to the EPA sections of the various areas of the reginfo.gov site are below.

And the attached Excel workbook provides a listing of all of the OTAQ actions in the various categories: the “active-longterm-completed” spreadsheet (1st tab) contains actions in these 3 stages – Column E denotes which stage an action is in; and the “inactive” sheet (2nd tab) lists all of the items on the Inactive Actions list. We included filter buttons in both sheets to search for just OAR actions, and all OTAQ actions are in bold, red font.

The OTAQ actions that we worked with your Divisions on to review & update abstracts, dates, etc. are included here (thank you for all of your help!!), except we noticed that the Fuels Reg Modernization/Streamlining rule did not appear here for some reason. We are checking with OP on this, and will make sure that it appears in the Fall Reg Agenda – we will likely receive the call for updates for the Fall Agenda soon.

Links to EPA sections of the Reg Agenda:
